

### To get to the Long lab:

- 1) Arrive at the main NYU medical center at 550 First Ave. (just south of 33<sup>rd</sup> St.).
- 2) Walk into the main entrance and take the 'Yellow Pathway' to the right of security past one elevator bank and two sets of glass doors all the way back to the Smilow building. Take the elevators to the sixth floor.
- 3) Call me from the phone near the card access door – I will let you in. My extension (X39145) is printed on an information sheet near the door.

*NOTE: On nights and weekends, you will need card access in order to ride the elevator. You can either take the stairs or call me and I can come down to meet you. My numbers are:*

*(617) 821-6851 (Cell)    (212) 263-9145 (Office)    (212) 263-9481 (Lab)*
